SUMMARY

Product Design Lead with 9+ years designing and shipping mobile app experiences at Grab, Gojek, and Tokopedia across Indonesia, Singapore, and Vietnam. At Grab, designs driver experiences across the iOS and Android apps, following Apple's Human Interface Guidelines on iOS, designed for Apple CarPlay, and owns the end-to-end in-transit experience where location, timing, and proof of delivery come together. Redesigned Gojek's Driver App homescreen and wayfinding, lifting satisfaction 20% in Singapore and 4% in Indonesia. Industrial Design (ITB) and M.Eng. Design Science (Chiba) background; prototypes and synthesises research with AI-assisted tools.

EXPERIENCE

Product Design Lead – Grab

May 2024 – Present · Singapore

- Designed Default Accept, rethinking how drivers accept jobs, and standardised several job-card variants into one modular block system; tested comprehension with Singapore drivers before the Indonesia launch, where acceptance rate rose +8.20pp in Semarang and +3.43pp in Palembang.
- Delivered the "On Time, Every Time" initiative, contributing to a ~0.23pp reduction in late orders in high-density markets like Jakarta and Ho Chi Minh City.
- Designed the driver-facing proof-of-delivery experience, showing up to a 5% reduction in potential batch resequencing; its ML-assisted photo validation extension was approved by Grab's Patent Office for patent filing.
- Designed driver experiences across Grab's iOS and Android driver apps in the fulfillment team, following Apple's Human Interface Guidelines on iOS, and designed the driver experience for Apple CarPlay.
- Owned the end-to-end in-transit experience (location, timing, proof of delivery), using AI to accelerate research synthesis, translation, and prototyping while maintaining design quality.
- Spearheaded a redesign of the driver Earnings experience to address declining driver sentiment and correct take-rate misconceptions.

Design Manager – Gojek

Apr 2023 – May 2024

- Led the Driver Platform team across the Supply, Benefits and Quality, and Fulfillment groups; managed 4 Product Designers and hired designers for the team.
- Facilitated OKR planning workshops with cross-functional stakeholders and built a design and research roadmap aligned with company product strategy.
- Modelled best practices for using data to inform design decisions and helped designers bring data into their work.

Product Design Lead – Gojek

Apr 2021 – Apr 2023

- Spearheaded a designer-driven redesign of the Driver App homescreen and wayfinding (Indonesia Nov ’21, Singapore Jan ’22); satisfaction improved over the prior version by 20% in Singapore and 4% in Indonesia.
- Designed and delivered financial products for drivers, contributing to a 5.5% MTU improvement for the Benefits program in Apr ’22.
- Led the Driver Quality stream within the Driver Platform team.

Senior Product Designer – Gojek

May 2018 – Apr 2021

- Redesigned and researched Gojek’s internal fraud-mitigation tools, achieving a satisfaction score of 82.5.
- Proposed self-diagnosing tools and the exclusion of unfair ratings, grounded in research and drivers’ voice; both were released.
- Created a Job and Career Architecture for Product Designers and co-built a promotion playbook with Design Ops.

UX Design Mentor – Purwadhika Startup and Incubation School

Oct 2018 – Dec 2018

UX Designer – Tokopedia

Feb 2017 – May 2018

- Designed customer-facing checkout, logistics, and order-management flows for the Transaction and Logistics teams, from wireframes to visual design, grounded in user research run with the research team.

SKILLS

Design Leadership · Product Strategy · UX Testing and Research · Prototyping · Design Systems · iOS HIG and Apple CarPlay · Workshop Facilitation · AI Workflows

Tools: Codex, Cursor, Maze

HONORS, AWARDS AND PROJECTS

- ML-assisted image validation system for deliveries (UI design) – approved by Grab’s Patent Office for patent filing
- Best Design Experience, Adobe Creative Jam – Adobe x GOJEK, Mar 2018
- Silver Award, International Student Joint Capstone Design (I-CAPS) – Chonbuk University with Universiti Kebangsaan Malaysia, Feb 2014
- Dax Design Library – design system (case study at samethysta.com)

EDUCATION

M.Eng. Design Science – Chiba University, 2016

Bachelor of Industrial Design – Institute of Technology Bandung (ITB), 2010
